

# YOUR 3-STEP SMILECARE ROUTINE

How to ensure you maximize the long-term benefits of teeth whitening effectively.

INITIAL SESSION

AFTERCARE MAINTENANCE

TOP UP SESSION

## STEP 1

Your cosmetic teeth whitening session with your Harley Street Smiles Certified Specialist.

## STEP 2

Following your session, aftercare products are essential to maximise and maintain your initial results. After your initial cosmetic teeth whitening session, use the **MATCH WHITE Advanced Aftercare Teeth Whitening System** for 20 minutes daily for the first 7 days, then once weekly for 10 weeks.

Additionally, enhance your results with our **MATCH WHITE** range, which includes **Teeth Whitening Toothpaste Foam, V34 Tooth Whitening Strips, V34 Colour Corrector, Mouthwash and InfinityX Toothbrush** as part of your smiles ritual.

## STEP 3

A top-up session can be booked with your Harley Street Smiles Certified Specialist to maintain your whiter brighter smile (this varies from person to person depending on their lifestyle and diet).

Some customers may need more than 1 session to get to their desired results. Book this in advance to ensure session availability.
